DETAILED ACTION

1. This action is in response to Applicant's submission filed 3/28/08, responding to the 12/28/07 Office action which detailed the rejection of claims 1-21 and 23. Claim 1 has been amended, claims 3, 4, and 11-22 have been canceled, and new claims 24-26 have been added. Claims 1, 2, 5-10, and 24-26 remain pending in the application and have been fully considered by the examiner.

Response to Arguments/Amendments

2. Applicant's arguments, see pages 6-9, filed 3/28/08, with respect to the rejection of claims 1, 2, and 5-10 have been fully considered and are persuasive. The rejections of claims 1, 2, and 5-10 have been withdrawn.

Allowable Subject Matter

3. Claims 1, 2, 5-10, and 23-26 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations: a canonically-parsed representation of a modified version of a first release of a standard code base and using difference data in applying the changes made to the first release of the standard code base to a second release of the standard code base to generate a modified version of the second release of the standard code base that adapts the second release of the standard code base to operate on the particular type of computer; and a canonically-parsed

intermediate version of the first release of a standard code base and generating difference data using manual changes to the intermediate version of the first release of the standard code base. These limitations are present in independent claim 1. The distinctions provided by the independent claim apply equally to all dependent claims. Thus all pending claims 1, 2, 5-10, and 23-26 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
